A Lasting Investment in Mental Health Care

The opening of UnityPoint Health – Eyerly Ball's new facility marks a major step forward for mental health care in Central Iowa. The centralized space brings critical services together under one roof - improving access, coordination and dignity for individuals seeking care at every stage of their mental health journey.

This progress was strengthened by an anonymous \$1 million gift that established Eyerly Ball's first-ever endowment. The unrestricted support allows leadership to respond to evolving community needs, invest in staff and programs and ensure sustainable, high-quality mental health care for years to come.

Together, these investments reflect a shared commitment to compassionate, accessible mental health care. Because of generous donor support, Eyerly Ball is meeting urgent needs today while building a stronger, more sustainable future for individuals and families across Central Iowa.

Your support makes this possible. Thank you.
