## New Outdoor Garden and Therapy Area

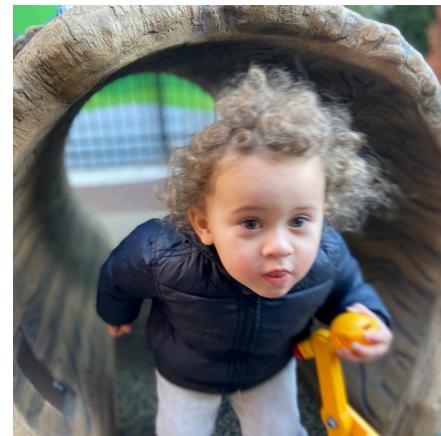

The outdoor space next to Blank Children's Hospital has been transformed thanks to Judy Blank, the Blank Family and Variety - the Children's Charity. This new garden offers a peaceful reprieve for patients, families and team members.

The garden provides great benefits including:

- Sensory experiences through an "I Spy" game.
- A table with shaded umbrella for crafts or projects.
- Seating and wheelchair accessibility.
- A swing!
- Space to promote play through games, bubbles, sidewalk chalk, and more.

There is also a dedicated space for patients receiving services from the Variety Pediatric Therapy Department. This new space creates an extension of the therapy gym so children can participate in their physical, occupation or speech therapies in an outdoor setting.

**A big thank you to the donors who brought this new space to life.**
