

2025 Community Impact Report

UnityPoint Health
Trinity

Our Mission

Mission: Improve the health of the people and communities we serve.

Vision: Best outcome, every patient, every time.

UnityPoint Health is committed positively impacting the communities we serve. Whenever and wherever you receive UnityPoint Health services, you can expect a welcoming environment that supports our organizational values and upholds treating people with dignity and respect.

At UnityPoint Health – Trinity, we are improving healthcare outcomes for all patients by leveraging our expertise, community partnerships, and data-driven strategies to improve access to quality care by offering:

- Free and discounted care for people unable to afford health care.
- Care to low-beneficiaries of Medicaid and other indigent care programs.
- Services designed to improve community health and increase access to healthcare.

The following report shares highlights from 2025.

2025 COMMUNITY BENEFIT OVERVIEW

COMMUNITY BENEFIT PROGRAM SUCCESS STORY

UnityPoint Health

Prevention and Wellness for Heart, Diabetes & Cancer

UnityPoint Health

Cooking with Heart Series

Three popular series helped Quad Cities residents embrace healthier eating with quick, customizable meals built around Mediterranean and plant-focused recipes – all prepared in 15 minutes or less.

All classes are free, and no referral needed from a provider! The series offered includes:

- **Cooking with Heart Foundational**
- **Cooking with Heart for Diabetes**
- **Cooking with Heart for Cancer**

Over 100 people attended the 17th Annual Dr. V.R. Alla Community Symposium, “The History of Medicine, Where We are Today, and What’s Coming in the Future,” which explored the history of medicine in addition to the current and future innovations that are to come in the health care field.

I participated in the Cooking with Heart/Cancer series classes at UnityPoint Hospital–Rock Island and found them to be extremely valuable.

I have always been interested in providing my family with healthier options, and these classes offered practical, realistic guidance. I especially appreciated the emphasis on keeping things simple and using recipes with limited ingredients, which makes lifestyle changes feel much more manageable. The opportunity to taste the recipes was also a wonderful addition.

I am excited for future offerings and grateful that these classes are available to the community. Thank you for providing such a beneficial program.

TRINITY HEALTH FOUNDATION

UnityPoint Health

Trinity Health Foundation

Trinity Health Foundation brings people, organizations and philanthropic resources together to support the Trinity mission to improve the health of the people and communities it serves. In 2025, Trinity Health Foundation directed donations to more than 150 funds which support virtually every aspect of the healthcare at Trinity. Over $1.5 M in funding was provided for patient assistance, community outreach, staff education, equipment and supplies, scholarships and capital projects.

2025 Foundation Statistics	
# of donors	1,154
# of gifts	1,570
Total donated	$2,225,396

COMMUNITY OUTREACH

UnityPoint Health

Trinity Parish Nursing

For 37 years, Trinity Parish Nurse Program has served the community with wholistic health services which include many aspects of care such as emotional and spiritual support, health education and prevention services.

In 2025, 21 churches participated in the Parish Nurse Program for all or part of the year. These programs served a combined church membership of approximately 18,000 people through eighteen Illinois churches and seven Iowa churches.

Their activities resulted in 9,531 individual contacts, 1436 health teachings, 131 educational programs with 1,859 participants, 226 support group sessions with 1,752 participants. In addition, 270 blood pressure screening events were held with 955 individuals screened.59 foot clinics with 445 participants.

Trinity parish nurses worked a total of 7,621 hours and supervised an additional 2728 hours volunteered by church members. Total contacts averaged 794 per month to improve and support the health of their members.

Military & Veterans Services

UnityPoint Health – Trinity honors and supports veterans and transitioning military members within our workforce and throughout the community. Through Quad Cities Community Veterans Engagement Board (CVEB) initiatives—including the Quad Cities Veterans Experience Action Center (VEAC), Counseling on Access to Lethal Means training for providers, and coordination of Women Veterans of the Quad Cities—we engage the military community during and after service, as well as health care providers and the broader community, to promote positive wellness and life outcomes.

A key initiative, the two-day Quad Cities Veterans Experience Action Center (VEAC) held in June, fulfilled its mission to connect veterans and transitioning service members with the benefits and services they earned—and, in many cases, changed lives. The event served 415 veterans, transitioning military members, and spouses or caregivers, including 67 women.

VEAC participants received direct access to a wide range of VA services, including face-to-face assistance with benefits claims and appeals, burial benefits through the National Cemetery Administration, and Veterans Health Administration services such as health care enrollment.

We're proud to serve those who have served.

Military & Veterans Services

VEAC Outcomes and Impact –

- More than 2,600 engagements occurred between attendees and community and peer-to-peer partners, connecting participants with non-VA local organizations for support related to mental health, social connection, financial assistance, and other needs.
- 66 medical disability exams were completed.
- 62 new applications for VHA health care were submitted.
- 24 veterans were identified as at risk of homelessness, with follow-up initiated by the VHA homeless team.
- 28 veterans were scheduled for appointments with the Quad Cities Vet Center.
- 17 free caption phone services for hearing-impaired veterans were arranged for in-home installation through CaptionCall by Sorenson.
- 3 veterans were successfully matched with a service or therapy dog.

Transformation Tuesday Health Presentations at the Rock Island Arsenal reached 5,503 civilian and military personnel through 12 health educational sessions.

Volunteer Services

Our volunteers are an engaged group dedicated to helping provide exceptional health care to the Quad Cities community. Volunteer services strives for a positive and meaningful volunteer experience. Volunteers are included in Friends of Trinity, a group with a mission to support the health system through service and fundraising efforts. Friends of Trinity has donated more than **$4.5M** to the hospital since its inception.
