

Nassif Community Cancer Center offers support from diagnosis through survivorship

SPRING 2026

St. Luke's Health Care Foundation

IMPACT REPORT

*The mission of UnityPoint Health® -
St. Luke's Health Care Foundation is to support
UnityPoint Health - Cedar Rapids in giving the
health care we'd like our loved ones to receive.*

News and Information

- Kathy Curfman was relieved she wasn't having a heart attack. She didn't know St. Luke's emergency medicine physician suspected something worse—a catastrophic tear in her aorta. His quick thinking got Kathy the help she needed. How do you thank someone for saving your life? See page 9.
- The last thing a cancer patient should have to worry about is putting food on the table or gas in the car. Now St. Luke's Health Care Foundation is raising money to help 100 patients a year with essentials that aren't covered by insurance. See page 4 on how you can help.
- What do you want your legacy to be? Estate planning attorney Johni Hays is helping a Fairfax couple achieve their dreams for the future. Together they've crafted an estate plan that maximizes the dollars available for their heirs and preferred charities by minimizing their tax burden. See pages 10-11.

Welcome

Celebrating a New Beginning

For 42 incredible years, Carmen Kleinsmith has been a pillar of our organization. From the start of her career as a graduate of St. Luke's School of Nursing to her final day retiring as Chief Nursing Officer at St. Luke's Hospital, Carmen's leadership, compassion and dedication have shaped our culture and touched countless lives.

In honor of Carmen's years of service to the nursing profession, St. Luke's Health Care Foundation is pleased to announce the creation of the Carmen Kleinsmith Magnet Endowment Fund. This endowment will play a crucial role in continuing St. Luke's Magnet designation for Nursing Excellence from the American Nurses Credentialing Center. St. Luke's earned its first Magnet designation in 2009 and was redesignated three additional times. Only about 10% of hospitals receive Magnet designation, and fewer than 2% have received it four times. St. Luke's is the only hospital in Cedar Rapids to have earned this prestigious honor.

As Carmen moves on to the next chapter in her life, we are excited to welcome Kristin McVay as Chief Nursing Officer for UnityPoint Health - Cedar Rapids. Kristin has more than 20 years of healthcare experience in the Cedar Rapids region. Her visionary thinking, collaborative approach and commitment to clinical excellence and patient safety make her uniquely positioned to advance nursing excellence in our community and throughout UnityPoint Health.

With gratitude for all you do,

Casey Greene
Market President, UnityPoint Health - Cedar Rapids

Mary Klinger, President
UnityPoint Health - St. Luke's Health Care Foundation

Carmen Kleinsmith and Kristin McVay

MEET THE FOUNDATION

Eric Dalton

Shadia Igram

Ryne George

Kate Minette

UnityPoint Health - St. Luke's Health Care Foundation is pleased to welcome four new board members.

Physicians' Clinic of Iowa Chief Executive Officer Eric Dalton, Cedar Graphics Accounting Manager Shadia Igram, Corda Credit Union Foundation Executive Director Ryne George and community volunteer Kate Minette.

2025 BOARD OF DIRECTORS

Jim Levett, MD, Chair	Casey Greene
Mary Hagen, Vice Chair	Shadia Igram
Susan Ovel, Secretary	Guy Johnson
Luke Hicks, Treasurer	Stanley Mathew, MD
Lois Buntz	Kate Minette
Tami Culver	Gene Neighbor
Eric Dalton	Gwen Randall
David Ernst	Connie Robinson
Ryne George	Betsy Souer
Brian Globokar	

UNITYPOINT HEALTH - ST. LUKE'S HEALTH CARE FOUNDATION STAFF

Mary Klinger, President
 Tonya Arnold, Senior Director of Operations
 Julie Coppock, Grants Manager
 Travis Foss, Senior Development Director
 Jennifer Pettigrew, Donor Relations
 Danielle Rauser, Development Director
 Jennifer Sweeney, Director Annual Giving
 Vanessa Taylor, Data Services Manager

2025 FUNDING PURPOSE

Capital	\$2,611,110
Education	\$217,559
Employee Assistance	\$72,401
Equipment	\$132,573
Patient Assistance	\$127,594
Programs & Services	\$1,320,277
Scholarships	\$253,987
Total	\$4,735,501

The Foundation would also like to welcome Travis Foss as senior director of development. Travis comes to us from the University of Iowa Center for Advancement where he had been in a development role since 2018. Prior to that he was at Coe College. Travis has a Master's degree from Saint Ambrose University and a Bachelor of Arts degree from the University of Iowa.

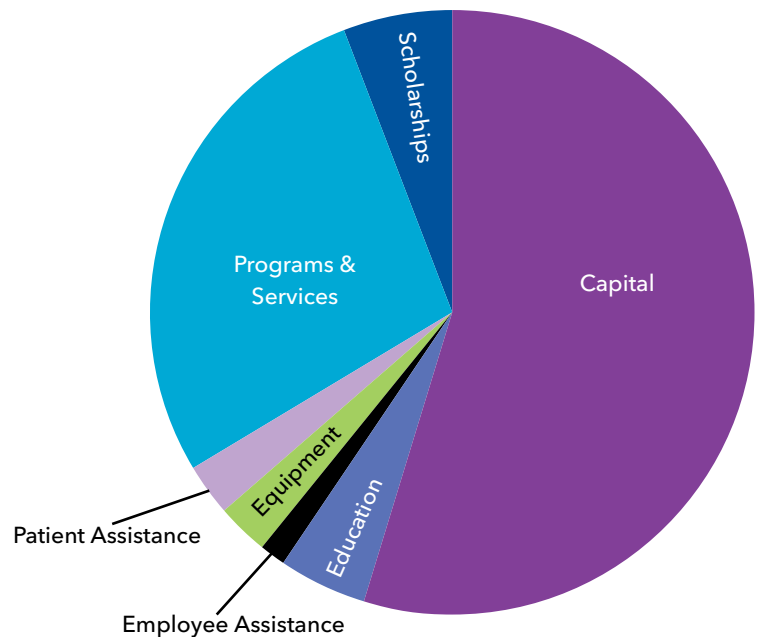

Travis Foss

The Foundation wishes to thank Kathy Epley, who retired from the board after nine years of service.

OUR CULTURE

In 2025, our amazing team members, providers and volunteers gave more than \$270,503 to St. Luke's Health Care Foundation. St. Luke's Volunteer Services also contributed the equivalent of \$1,075,277 in labor costs to St. Luke's Hospital, reflecting the essential role they play in supporting our mission. And St. Luke's Gift Shop's donation of \$150,000 to St. Luke's Auxiliary helped fund a significant gift to Abbe Center for Community Mental Health. Together, your dedication and generosity strengthen our hospital and community every day.

HELEN G. NASSIF COMMUNITY CANCER CENTER

Easing the Burden for Cancer Patients

Matt Schmitz, Nassif Community Cancer Center Manager

A cancer diagnosis changes...everything. So many questions, so much to decide. What kind of treatment will you have? Can you still work? How will your loved ones be affected? And how much will all this cost?

The last thing a cancer patient should have to worry about is putting food on the table or having enough gas to drive to doctor appointments. But for too many in our community, fears like that can be a reality.

That's why the Helen G. Nassif Community Cancer Center created the Patient Assistance Spirit Fund. The Nassif Community Cancer Center's mission is to help and support patients and their family members from diagnosis through survivorship. That includes reducing the barriers to cancer care so patients get the effective treatment and follow-up services they need.

"Our caregivers saw patients who were struggling with basic necessities," explains manager Matt Schmitz. "The Spirit Fund provides direct financial relief for individuals with a cancer diagnosis. Qualifying patients can receive up to \$500 in gift card support to cover essentials such as food, fuel or medical supplies that aren't covered by insurance."

St. Luke's Health Care Foundation has started an annual fundraising campaign on behalf of the Spirit Fund, with the goal of helping 100 cancer patients a year. The Transamerica Foundation has generously contributed \$20,000 towards that goal. Other gifts include a transportation grant from the American Cancer Society.

Qualifying patients must be receiving oncology care within the Nassif Community Cancer Center's service area and be under the care of at least one Community Cancer Center provider. Eligibility is based on annual household income.

"The Spirit Fund reflects the compassion of a community coming together to support individuals and families facing cancer," says Laura Wirth, Transamerica Foundation board member. "The Transamerica Foundation is proud to support St. Luke's Health Care Foundation in providing practical assistance that allows patients to focus on their health and healing."

Matt adds, "The need for Spirit Fund assistance is greater than ever. Cancer rates in Iowa are on the rise. With grocery and fuel costs up and benefits shrinking, any help we can give our patients will make a real difference in their quality of life."

The need for help from the Spirit Fund continues to exceed the available dollars. Now St. Luke's Health Care Foundation is raising \$50,000 to ease the burden for cancer patients in our community. Donate today at communitycancercenter.org or call (319) 369-8100 for more information.

HEART EXPANSION CAMPAIGN

Her Heart is with the Heart Department

Therese Rowell (center) and her family.

Therese Rowell remembers that day in 2007 when her husband, Dave, had his heart attack. “From the moment we arrived in St. Luke’s ER, they focused their attention on him like he was the only person there. Dave was a tough retired policeman and I’d never seen him scared before. But everyone was so reassuring. I can’t say enough about their kindness and thoroughness.”

Therese also credits St. Luke’s Cardiac Rehab with supporting Dave on his road to recovery. She recalls, “Even though it was a group class, they focused on him as an individual, answered his questions and helped him heal.”

Therese and Dave had given to St. Luke’s Health Care Foundation before, but after that they focused their donations on heart care, especially cardiac rehab. And although she lost Dave to a stroke in 2024, Therese continues to contribute annually to the Foundation, adding, “My heart will always be with the heart department.”

With support from St. Luke’s Health Care Foundation, UnityPoint Health - St. Luke’s Hospital is now in the third and final phase of its \$25 million Heart & Vascular expansion. Phase 1, completed in 2023, expanded the capacity of electrophysiology services to treat patients who need pacemakers, implantable defibrillators, and

ablation procedures for irregular heart rhythms. Phase 2 wrapped up in January 2025 with the opening of two new vascular and interventional radiology labs, for imaging, biopsies, treatment of aneurysms and restoring blood flow to blocked vessels.

The final phase—a hybrid operating room—is now underway and will be home to advanced procedures like TAVR (transcatheter aortic valve replacement) and mitral valve repair using MitraClip. The completed expansion will help ensure St. Luke’s can accommodate the growing number of patients who require specialized heart and vascular care.

Therese Rowell is proud to contribute to the growth of St. Luke’s cardiovascular program. She says, “After Dave’s heart attack, we had 17 more years together. Giving to St. Luke’s Health Care Foundation is my way to thank everyone who helped make that possible.”

*You can help build healthier futures for cardiovascular patients when you support St. Luke’s Heart & Vascular expansion campaign. For more information, call St. Luke’s Health Care Foundation at **(319) 369-7716**.*

OFFICER KYAH

Doing Her Duty to Keep Our Campus Safe

Officer Kyah

Campus Security Car

It's been over a year since Officer Kyah joined UnityPoint Health - St. Luke's security team, and her boss says she's already made a big impact.

"Much of the work our department does is behind the scenes," explains Security Manager Andrew Novotny. "Kyah is a visible reminder we are on the job protecting everyone who walks through our doors."

A very good dog, Officer Kyah has helped de-escalate potentially violent situations. Her training in drug detection has also resulted in fewer narcotics being brought onto St. Luke's campus. Andrew says patients love seeing her.

"They tell us how beautiful she is, but she also makes people feel safe."

St. Luke's Hospital K-9 program was made possible with support from St. Luke's Health Care Foundation. Now the Foundation is raising money to add a second dog, handler and security vehicle to the program.

"Another dog and K-9 handler will give us an extra layer of security during the day shift when our facility is at its busiest," Andrew says. "And the vehicle has special safety features to keep the dog safe and secure."

"Unfortunately, hospital workers are four times more likely to face workplace violence than other employee groups," he adds.

"We want our team members to focus on providing great care for our patients, without having to worry about their own welfare. A fully staffed K-9 program is an important step in keeping everyone—team members, patients, visitors and volunteers—safe."

St. Luke's Health Care Foundation is raising \$100,000 to support St. Luke's K-9 program. Your gift now will help make our campus safer for patients, visitors and team members. Donate at uph.link/CRGive or call (319) 369-7716.

PHYSICAL MEDICINE & REHABILITATION

Helping Your Neighbors in Need

Robert Joslin lost his battle with ALS (Lou Gehrig's disease) in 1989, but his legacy lives on. The Joslin Fund for Rehabilitation was created as a joint project of the Iowa Farm Bureau Foundation and St. Luke's Health Care Foundation to honor Bob's service as a past president of the Iowa Farm Bureau. All 99 county Farm Bureaus, as well as Bureau vendors and Bob's family and friends, contributed more than \$136,000 to establish the fund in keeping with the Iowa tradition of "helping your neighbors in a time of need."

Over the years, Joslin Endowment funds have supported St. Luke's Physical Medicine & Rehabilitation (PM&R) in helping people of all ages with brain and spinal cord injuries, stroke and chronic neurological conditions including ALS. Contributions from the fund have benefited patients by providing equipment, facility upgrades and continuing education for the nursing staff. Most recently, Joslin Endowment Fund dollars helped St. Luke's PM&R purchase the ARCEX Therapy System to improve hand sensation and strength, as well as the innovative HydroWorx 300 aquatic therapy tank.

You can lend a helping hand now when you give to the St. Luke's PM&R Wish List. Items on the list include the Bioness Integrated Therapy System (BITS3.0). Its interactive touchscreen and advanced programs help patients improve hand-eye coordination, balance and cognitive issues. Also on the list is the STISIM Drive G4 that allows therapists to integrate innovative driving simulation technology into everyday practice to help patients regain their independence and our communities stay safe.

Endowments like the Joslin Endowment Fund and gifts of all sizes from our friends and neighbors have a direct impact on patient outcomes. With the right equipment and the support of our skilled team, over 96 percent of St. Luke's PM&R patients reach their rehab goals.

Your gift to St. Luke's PM&R Wish List will help patients make great strides on their road to recovery. Donate now at give. unitypoint.org/rehab or call St. Luke's Health Care Foundation at (319) 369-7716.

STISIM Drive G4 simulator

The Integrated Therapy System (BITS3.0), helps patients improve coordination, balance and cognitive issues.

NUTRITION ROOM

Safe, Secure Baby Nutrition Starts Here

Four out of five babies born in the Cedar Rapids area are born at St. Luke's. In addition, other hospitals transfer newborns here when they need the specialized care of a Level III Neonatal Intensive Care Unit (NICU).

In 2025, St. Luke's had approximately 270 babies in the NICU, with each infant requiring six to eight feedings a day. It is essential every baby entrusted to our care receives the right nutrition for their needs. That's why St. Luke's Helen G. Nassif Center for Women's and Children's Health is creating a designated milk and formula room.

This state-of-the-art Nutrition Room will enable us to store and prepare formulas and pumped breast milk in a centralized, sterile environment. Staff trained in preparing feedings according to strict protocols will ensure safe, accurate delivery of each infant's personalized nutrition.

The Nutrition Room is being funded entirely by contributions from our donors, including a \$100,000 gift from the Dr. Morgan J. Foster Pediatric Care Endowment Fund. Dr. Foster, who passed away in 1973, was the epitome of a dedicated country physician. He was also one of Iowa's first pediatricians, bringing specialized care to babies and children throughout Linn County.

"I remember my father answering the phone in the evening, then taking his black bag and going out to make house calls," says Dr. Foster's daughter Julie Foster Van Camp. "He had a true heart for our community and understood the needs of farm families. At times he would even take a chicken as payment for his services!

"My father was a firm believer in preventive medicine," she adds. "This Nutrition Room will help prevent avoidable illnesses and increase the safety of nutrition programs for babies at St. Luke's. My first grandchildren, now 36 years old, were premature twins, so I have a special interest in improvements to the NICU. And I'm proud this gift will honor my father's legacy of caring for young children and families in Iowa."

We're \$55,000 short of our Nutrition Room goal. Help us support babies and children at UnityPoint Health - St Luke's with your gift to the Helen G. Nassif Center for Women's and Children's Health. Donate at uph.link/CRGive or call us at (319) 369-7716.

GUARDIAN ANGEL PROGRAM

A Meaningful Way to Say Thank You

Dr. Ryan Dowden (center) receives a Guardian Angel Award

One minute Kathy Curfman was getting ready to make dinner. Then a sudden wave of vomiting, diarrhea and chest pain had Kathy in an ambulance speeding to UnityPoint Health - St. Luke's Hospital Emergency Department in Cedar Rapids.

"They did an EKG right away and it was OK," recalls Kathy. "I told my husband good news—it's not a heart attack! I don't remember much after that."

Emergency medicine physician Ryan Dowden, MD, was certain Kathy was experiencing an aortic dissection—a catastrophic tear in the body's main artery. He ordered a CT scan that confirmed his diagnosis and immediately arranged her transfer to the surgical specialists who would spend 16 hours repairing her damaged aorta and other arteries.

Today, Kathy is grateful for her new lease on life. So, she decided to make Guardian Angel donations through St. Luke's Health Care Foundation to recognize the caregivers who made a difference for her.

"One was in honor of my St. Luke's cardiac rehab team," explains Kathy. "What happened to me was very scary. They helped me get over my fears as I recovered. I also

made a donation for the Guardian Angel who saved my life. I didn't remember Dr. Dowden, but I knew he played an important role in why I'm here today."

She adds, "Saying thank you to Dr. Dowden seemed so insignificant, but it's all I had."

For Dr. Dowden, it was more than significant. "When a patient like Kathy leaves the ER, you're praying she survives. But as an emergency room doctor, you rarely get to see patients again. That Kathy chose to honor me was very special. Meeting her again and sharing in the excitement of her survival and recovery made it even more meaningful."

As for the Foundation's Guardian Angel program, Dr. Dowden says, "We need the right equipment, training and facilities to deliver the top-notch health care that we do. St. Luke's Health Care Foundation plays a key role in that!"

You can say thank you to the caregivers who went above and beyond for you or your loved ones. Guardian Angel gifts can be any size, and a ceremony honors the recipients. For more information, call (319) 369-7716.

Kristen and Travis Kasner

PLANNED GIVING

Taking the “Overwhelming” Out of Estate Planning

Planning for the inevitable isn't easy. St. Luke's Health Care Foundation offers a complimentary service that can take the “overwhelming” out of drawing up an estate plan. Just ask Kristen and Travis Kasner.

“Like many people, we'd postponed planning our wills and estates,” admits Kristen. “It's not fun to think about your inevitable death, but we see this as a gift for our children. We're making decisions now so they're not burdened with them in the future.”

Kristen is a certified Sexual Assault Nurse Examiner and Childhood Assessment, Referral and Early Intervention program coordinator with St. Luke's Child Protection Center. She and her husband, Travis, an electrical engineer at Van Meter, decided to take advantage of confidential one-on-one consulting services with estate planning specialist Johni Hays. A senior vice president with Thompson & Associates, Johni works with St. Luke's Health Care Foundation to help our friends and supporters craft their estate plans.

“We've been offering this as a benefit for several years,” explains Julie Coppock, grants manager for St. Luke's

Health Care Foundation. “Of course we're gratified if people ultimately decide to include the Foundation in their estate planning, but there's no requirement. And because these consultations are extremely confidential, the only way we know if we are included in someone's plans is if they themselves choose to tell us.”

The Kasners met with Johni several times. “There was no pressure,” says Kristen. “We talked about our hopes and dreams—what we want our retirement to look like and what we want for our kids and grandkids after we're gone. We also talked about the things we value and what we'd like our legacy to be.”

Travis notes, “Kristen and I were in general agreement on the things that were important to us, and Johni helped us drill down into the specifics. She also showed us how to structure our assets so we get the maximum benefit for our heirs by minimizing the amount that goes to taxes.”

Kristen wants part of the estate to support the Child Protection Center (CPC). “I've worked there since 2012 and I've seen how donations to St. Luke's Health Care Foundation benefit the kids and families we serve. I want

to give back so the CPC can continue to meet the needs of children who have experienced abuse.”

Travis chose to fund St. Luke’s Diabetes Camp for kids... and for a deeply personal reason. He says, “Kristen and I met in fifth grade. That’s about the same time she was diagnosed with Type 1 diabetes. I’ve seen how demanding this disease is and how it impacts her quality of life. I also know not every child with diabetes has access to the same resources and support system we have. If there’s a way to improve the quality of life for others, I want to be a part of that.”

Adds Kristen, “We could not have had a better experience. If you have the opportunity to work with Johni on your estate plans, take it!”

Johni Hays knows how to help individuals minimize their tax obligations while positively impacting generations to come.

For more information on how you can take advantage of this complimentary and confidential service, contact St. Luke’s Health Care Foundation at (319) 369-7716.

BUILDING A FOUNDATION FOR THE FUTURE: Mary Klinger Announces Retirement

Mary Klinger

Mary Klinger, president of UnityPoint Health – St. Luke's Health Care Foundation, has announced her retirement in the coming months. Because Mary is committed to ensuring a smooth and thoughtful transition, she will remain in her role until a successor has been appointed.

Mary has served as president of the Foundation for the past 13 years. Under her leadership, she and her team raised more than \$48 million in support of St. Luke's Hospital operations and initiatives. Her highly successful capital campaigns to enhance patient care include:

- Inpatient Hospice Unit
- Ronald McDonald Family Rooms
- Nassif Community Cancer Center

- Nassif Radiation Center
- Nassif Transitional Care Center
- 3SSU Inpatient Modernization Project
- Heart Care Services
- Abbe Mental Health Project (2025)

Casey Greene, market president for UnityPoint Health – Cedar Rapids, says, "Mary's leadership style is both remarkable and enduring. Her steady guidance and commitment to our mission helped strengthen St. Luke's during some of our most difficult moments, from the derecho that struck our community to the global Covid-19 pandemic."

He adds, "On behalf of everyone in our organization, I extend sincere gratitude to Mary for her outstanding service and unwavering support. We wish her the very best as she begins this well-deserved next chapter."
