LOOKING BACK ON 2025

with gratitude

Your generosity is improving the health and quality of life for people right here in our community. The achievements celebrated within this report are YOURS. The appreciation expressed each day by patients, families, community partners and our healthcare teams BELONGS TO YOU.

Thank you for being an exceptional partner in this important work.

About UnityPoint Health - Trinity Foundation

THIS WORK BEGINS WITH OUR VISION:

Best outcome, every patient, every time.

OUR VISION FUELS OUR MISSION:

**Improve the health of the people
and communities we serve.**

These values drive the Trinity Foundation team to work to address the unmet healthcare needs in our region. Collaborating with donors like you, we are dedicated to upholding excellence in quality, safety, and service - ensuring high-quality healthcare remains local and accessible to every patient and neighbor in need. Together, we provide care and support for patients, families and caregivers and our community.

you matter

A MESSAGE FROM ALYSSA

2025 was both an incredible and memorable year. Together, we not only met, but exceeded, our fundraising goal for the *Surgical Excellence, The Future Looks Bright*: capital campaign. This remarkable achievement speaks to the generosity of our community and the strong belief in our mission.

Whether you supported the surgery expansion and renovation project or chose to give to another area of need, I am deeply grateful for your continued commitment to improving the health and well-being of people in our community. Your generosity has and continues to make a positive impact.

Because of you, vital care, support, and essential resources are reaching those who need them most. Your contribution is more than a donation to us, it is a powerful expression of compassion that helps strengthen and uplift our friends, family members, and neighbors.

Thank you for standing with us, believing in our mission, and making this work possible. Together, we are creating meaningful change, and I am truly grateful to have you as part of this effort.

With heartfelt gratitude,

A handwritten signature in black ink that reads "Alyssa Stanek". The script is fluid and cursive.

Steve Tucker, Retired, Heartland Bank

da Vinci Surgical Robot

Improving Patient Outcomes

When you or a loved one needs surgery, having access to the most effective and least invasive treatment options can make all the difference. Thanks to the generosity and vision of donors, the Trinity Foundation was able to purchase the \$2 million system after the State Health

Facilities Council unanimously approved the required Certificate of Need on May 15, 2025. This investment is helping bring leading-edge technology and expanded surgical options to patients right here in our community.

The da Vinci Xi Surgical System allows surgeons to operate with enhanced precision and control while helping reduce discomfort for patients. This technology is used across several surgical specialties and procedures, including:

- Gynecologic surgery
- Gallbladder surgery
- Urologic surgery

For many patients, the da Vinci system can offer important benefits, including:

- Shorter hospital stays
- Less pain
- Lower risk of infection
- Less blood loss and fewer transfusions
- Smaller incisions and minimal scarring
- Faster recovery
- Quicker return to normal activities
- Fewer complications
- Better clinical outcomes

The da Vinci system was used in 144 surgeries in 2025 starting on June 30 when the first robotic-assisted procedure was completed. Using the da Vinci system patients recover faster and return to the people and activities they love. We're proud to offer advanced surgical care right here in Fort Dodge.

The Surgery and OB/GYN teams celebrated 100 procedures with the da Vinci system.

Team Member Perspectives

Amanda Wilson, RN

"I think the da Vinci system has really helped improve procedures for our patients, especially when procedures are anticipated to be more difficult or extensive," says Amanda Wilson, RN, First Assistant, Surgery, UnityPoint Health - Trinity Regional Medical Center. "It is also very rewarding that we are constantly learning new things and bringing innovative technology into the OR. It makes coming to work more exciting knowing there is always something new to learn and improve on."

Ashley DeBaun, RN

"The da Vinci system has impacted my life personally because I have had a robotic surgery myself, and my recovery was much quicker than with a traditional surgery," says Ashley DeBaun, RN, Surgery, UnityPoint Health - Trinity Regional Medical Center. "This also impacts my work in a positive way because I know our patients will experience less pain and quicker recoveries. The robot allows for precise movements and enhanced visualization, which helps make surgery smoother for our providers. Working with advanced technology also elevates our skill sets and helps keep us competitive with other organizations."

Bringing Comfort and Safety to Every Birth

Welcoming a baby into the world is one of the most memorable and important days in a family's life. At Trinity Birth Center, safety and comfort are top priorities, which is why the Trinity Foundation supported an upgrade to the labor and delivery experience for families.

After nearly 21 years, the labor beds were showing their age. Thanks to the generosity of Foundation donors, a Stryker birthing bed was purchased to provide enhanced comfort and support for both patients and our team members.

THIS STATE-OF-THE-ART BED FEATURES:

- Ergonomic design - Supports proper body mechanics to help prevent caregiver strain and injury.
- Ultra-comfort mattresses with integrated memory foam toppers - Provides cushioning and support, even during prolonged labor.

- Powered Skoocher® system - Moves mom closer to the edge of the bed at the touch of a button, helping caregivers provide support while keeping mom comfortable.
- Intermediate siderail positions - Allow mom to be closer to the bassinet and baby while maintaining safety.
- Length-adjustable footrests and calf supports - Offer nearly endless positioning options for customized comfort.

- Simple, safe locking systems and convenient controls - Adjusts easy for caregivers while keeping patients secure.

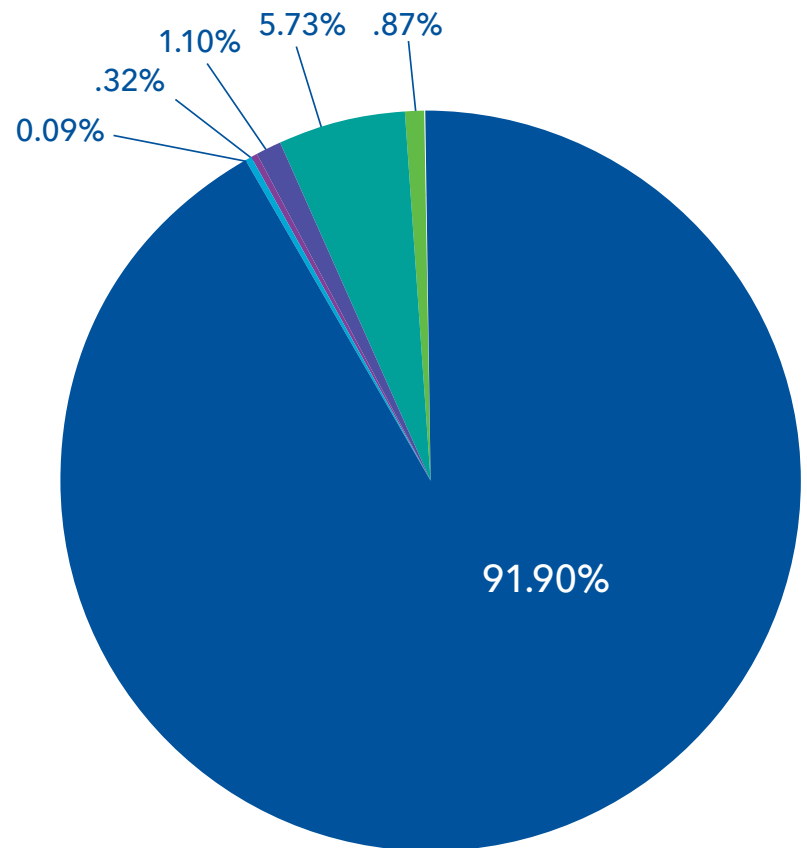

With this upgraded bed, laboring parents experience greater comfort and support, while our care teams benefit from safer, more efficient patient handling. Every moment of care—from delivery positioning to postpartum support—is focused on making the birth experience safer, smoother and more comfortable.

Your Gifts in Action

Here's a glimpse of how your generous support through Trinity Foundation has made a meaningful impact on the lives of our patients, families, visitors and team members.
